Welcome:

Are you looking for a position within the health service? Then how about a new job position in the Ashburton District?

Welcome to this Ashburton Online Microsite which will explain a little about health services in the Ashburton District, the career opportunities available plus provide some useful links....

the needs of local patients and citizens. Within primary providers (e.g. General Practices), community providers or outpatient, day patient and inpatient services based at Ashburton Hospital there are a range of jobs and careers available. Local health providers work collaboratively caring for patients with an extensive array of health conditions. They are committed to quality health care and are tremendously appreciated by the local community.

The District is a great area in which to live. It is friendly, positive, close to Christchurch (and an international airport), the Southern Alps (skiing at Mt Hutt), and has many other sporting and cultural opportunities available. Traffic is not a big hassle; the air is clean and the wide open spaces refreshing! Economically the District is largely based upon the agricultural industry. Schooling is of a high standard. Retail therapy (if that's your interest) can be met in Ashburton by a wide variety of shops and suppliers.

So do take a few moments to check our online video. Then if you would like to know more about available health positions please get in touch with us. We would really like to hear from you…
